Pennsylvania - Snowstorm Denial of Appeal

Denied on June 13, 2017

On May 2, 2017, Governor Tom Wolf requested a major disaster declaration due to a snowstorm during the period of March 13-16, 2017. The Governor requested Public Assistance, including snow assistance for nine counties and Hazard Mitigation for the entire commonwealth. On May 11, 2017, the Governor's request was denied. On June 2, 2017, Governor Wolf appealed the denial. During the period of April 11-21, 2017, joint federal, commonwealth, and local government Preliminary Damage Assessments (PDAs) were conducted in the requested counties and are summarized below. PDAs estimate damages immediately after an event and are considered, along with several other factors, in determining whether a disaster is of such severity and magnitude that effective response is beyond the capabilities of the commonwealth and the affected local governments, and that Federal assistance is necessary.¹

On June 13, 2017, the Governor's appeal for a major disaster declaration was denied based on the determination that the impact from this event is not of the severity and magnitude that warrants a major disaster declaration.²

² When a Governor's request for major disaster assistance under the Robert T. Stafford Disaster Relief and Emergency Assistance Act, as amended (Stafford Act) is under review, a number of primary factors are considered to determine whether assistance is warranted. These factors are outlined in FEMA's regulations (44 CFR § 206.48). The President has ultimate discretion and decision making authority to declare major disasters and emergencies under the Stafford Act (42 U.S.C. § 5170 and § 5191).
